TENNIS & PERFORMANCE RETREAT 2027

Six days that rebuild your game.

24—30 APRIL 2027 20 PLACES FROM CHF 5,900

A WEEK OF TENNIS CAMPS

changes nothing.

Most tennis holidays give you court hours and a suntan. You hit a few thousand balls, feel good for a week, and return to exactly the same game — because nobody measured anything, nobody built the engine underneath, and nobody gave you a plan for the eleven months that follow.

This is built the other way round. We test where you actually stand, coach technique on world-class courts at the Rafa Nadal Tennis Centre, train the physical engine that produces the shot, teach your nervous system to recover — and you leave with a personal programme in the AG Performance App, so the week compounds instead of fading.

18 hours

COACHED TENNIS

Three hours daily at the Rafa Nadal Tennis Centre — technique, tactics, video analysis and matchplay, in small groups matched by level.

Every day

TRAIN & RECOVER

Athletic training built on the A6 Athlete's Core, plus guided recovery, breathwork and a signature spa treatment at Sani.

Measured

TWO DIAGNOSTICS

Stress and metabolism analysis with full written reports — and a personal training programme afterwards in the AG Performance App.

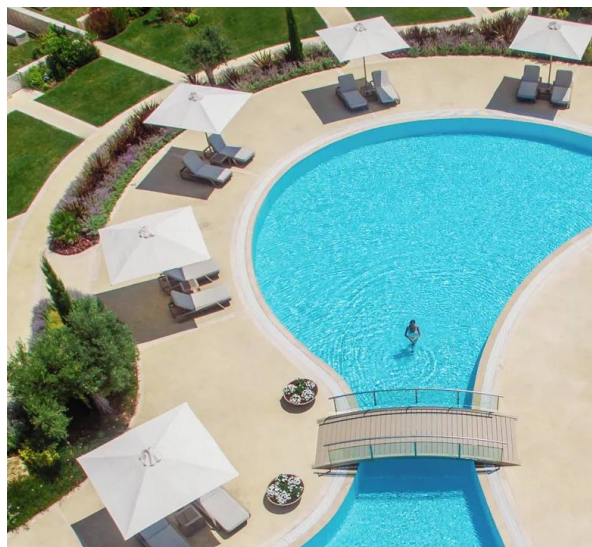

RAFA NADAL TENNIS CENTRE · SANI RESORT, GREECE

ONE DAY *at Sani.*

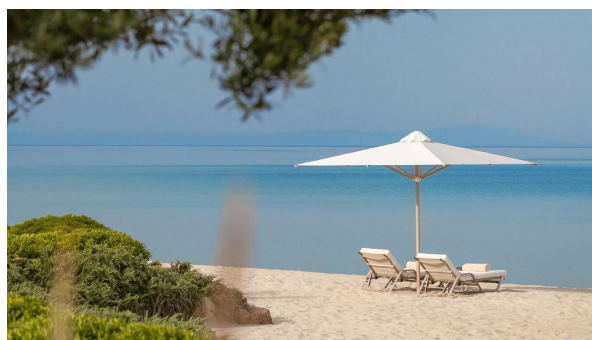

08:00	Run, or warm-up and mobility before tennis
09:00	Tennis — three hours at the Rafa Nadal Tennis Centre
12:00	Lunch break
14:00	Fitness and / or guided recovery
16:00	Yours — beach, pools, spa and everything Sani offers
19:00	Dinner on the Dine Around programme

The programme is subject to change.

Afternoons stay open by design. You train hard in the morning, recover properly, and still have half of every day for the beach, the marina or nothing at all.

SANI DUNES · ADULTS-ONLY, FIVE STARS

SEVEN KILOMETRES OF PRIVATE BEACH

MEASURED, NOT GUESSED

- **Stress & recovery analysis** — how your nervous system handles load, and how fast you actually recover
- **Metabolism analysis** — how your body produces energy, and what to eat to fuel your output
- **Full written reports** — the same diagnostics private clients in Zurich pay for individually
- **Your personal programme** — built from your results and delivered in the AG Performance App

SANI DUNES. *Choose your view.*

Every price includes the complete programme, full board, diagnostics, transfers and your personal follow-up plan. The only difference is where you wake up.
